Pine pellets

Bianco

Captain Pellet Bianco is a top quality, A1 class product which meets the highest quality parameters. The pellets are made of pure pine sawdust. It has a high calorific value and low ash content.

Captain Pellet Bianco guarantees the lowest ash content – no more than 0.3%. Recommended for users who appreciate high quality and efficiency combined with low ash content.

Bianco pine pellets are designed for heating residential buildings and production plants. It meets the highest quality parameters in accordance with European standard EN ISO 17225-2. The clean, efficient and eco-friendly pellets do not contain harmful substances and do not release unpleasant odours during combustion. Its high quality and efficiency is further proven by the minimal amount of ash generated during combustion. The distinctive features include their light colour, which indicates that only high quality, pure wood is used in the production process. The calorific value of the pellets is 17 MJ/kg and the moisture content does not exceed 9,4%. The product comes in the form of granules with 6 mm diameter.
