## Extra

---

The pine pellet is an alternative to traditional fuels. They are an environmentally friendly solution for convenient and clean operation of your heating appliance. Extra pine pellets, class A1, produced from sawdust, mean high quality at a reasonable price.

**Captain Pellet Extra is the perfect choice for customers who appreciate excellent quality fuel at a reasonable price.**

Captain Pellet Extra is a certified, high quality, energy-efficient and environmentally friendly fuel. It is manufactured by high-pressure compressing pine sawdust. It is manufactured in line with the highest standards of production procedures, raw material use and quality control procedures. The high calorific value of Extra pine pellets ensures energy efficiency and minimal ashing. The product is available in the form of granules with standard 6 mm diameter. The calorific value of the pellets is at least 16.7 MJ/kg, the ash content does not exceed 0.7% and the maximum moisture content is less than 8.8%.
